NOTE FOR THE DIRECTOR

SUBJECT: Topics for your Meeting with
Gene Tighe

1. Here are some questions on topics you might wish to draw Gene Tighe out on when you talk to him Friday. He will probably cover many without prompting. The ones marked with an asterisk touch on internal DoD conflicts or bureaucratic relationships he might not want to bring up himself-- but would probably talk about if asked.

2. You can expect questions from Congress about whether DIA should continue to exist and, if so, what it should do. They may also query you on DIA-CIA relationships. Discussion of these points may help you handle such questions.
